¹ As of 12/31/25; includes separate accounts and commingled assets. Total assets and total strategy assets are inclusive of total discretionary assets under management (AUM) as well as non-discretionary assets under advisement (AUA), as indicated. AUA generally consists of non-discretionary advisory assets managed by third parties in accordance with investment model portfolios provided by William Blair Investment Management, LLC (William Blair). William Blair receives an asset-based fee on AUA but does not exercise investment discretion or trading authority over such assets. All AUA data is reported on a one-month lag. William Blair's measure of AUM/AUA for these purposes may differ from the calculations employed by other investment managers and, as a result, may not be directly comparable. This measure also differs from the manner in which William Blair is required to report assets under management in certain regulatory filings.
